

STRAIGHT SIDED ECCENTRIC GEARED

EAGLE PRESS

& Equipment Co. Ltd.

SE4-1320-256-96

- automatic counterbalancing
- soft clutch and braking
- variable speed drives
- programmable cams
- hydraulic overloads
- tonnage monitor
- rolling bolsters
- transfer and feeder integration
- ADC (uni or bidirectional)

The Eagle SE (eccentric) press series addresses medium and high tonnage applications which require long strokes and have high energy demands. Custom bed areas, stroke lengths, shut heights and large windows are available.

This series is typically double-gearred, with either a two or four point suspension. SE series presses range in capacity from 400 to 3500+ tons with optional high-tech equipment available.
